- This side access trailer platform step model SATS6 which is designed specifically for safe and efficient access to side opening trailers. This model has a 6m length platform with steps at both ends.
- When side opening trailers need to be manually unloaded there is a potential unloading risk. This mobile platform with dual easy step 45 degree slopes is designed to alleviate the risks involved and allows users to descend facing forwards.
- The mobile access platforms come with braked swivel wheels as standard.
- As standard the step access platform is painted - colour blue RAL 5010, or can be galvanized
