- These modular steel boxes are rectangular with drilled holes. The holes are both on the sides and the base with the distance between the holes being 20mm.
- Galvanized as standard they are also available in stainless steel.
- The containers come with an extremely strong hand grip. Please call for details of the optional removeable lid with fixing hooks
- The tote pans can fit into shelves that we also supply. This then creates a practical, space saving and tidy environment for distributing materials.
- At Steps and Stillages we also have a complete range of accessories designed to integrate with our containers. From card holders and identification plates to wheels and lids we have the ideal custom solution for your needs.
